PERSONAL PROPERTY IDENTIFICATION RECORD

If you are a victim of a burglary it is important to know the serial numbers of the items stolen. Without positive identification made possible by a serial number – or unique number which you may engrave on your property – you may not be able to prove you are the rightful owner if the item is recovered. In addition, having a good record of your valuables makes it easier to report missing items to insurance companies for replacement.

Take a few minutes and record the description, serial numbers and value of those items which are most likely to be stolen. Many are listed on this form. You should also take pictures especially of jewelry, silver and antiques. Keep your property record and pictures safe along with insurance papers.
